

Covid-19/Coronavirus Safety Measures and Procedures

Stanmore Montessori successfully re-opened after the first National Lockdown on June 1st 2020 and, after following meticulously the Government guidelines, has been able to provide a nurturing, stable environment for children in nursery education. A full risk assessment, which is updated regularly to keep pace with changing conditions and current Government advice, ensures the safety of children, staff and parents. A system of controls is in place and policies and procedures are revised regularly to reflect any changes.

- ***Procedures may have to change at short notice to keep in line with any new outbreaks Nationally or locally and to comply with Public Health guidelines.***
